

# MELLOW YELLOW

Illuminating is the light at the end of the tunnel, the dawn of a new day, the literal and proverbial summer after a dark, cold season. It's the colour that evokes warmth, happiness, and a sense of renewed energy. Yes, we're talking about yellow - the vibrant hue that is set to take centre stage in your wardrobe for the upcoming summer season.

Mood-boosting brights are here to stay, and variations of yellow are bursting onto the fashion runways. This shade, often associated with the sun-soaked months, is no longer confined to summer attire. It's a colour that can be worn all year round, bringing a touch of sunshine to even the coldest of days. Moreover, yellow exudes positivity and a sense of calmness.

Yellow is undeniably a statement colour, and there's no better way to embrace it than by wearing it from head to toe. Look out for the best summer dresses from Mango in stunning shades of yellow to make a lasting impression at those special summer events.

For a more subtle approach, incorporate flashes of yellow against neutral shades to make the colour truly pop. Pick up a handbag and shoes from Kurt Geiger to make a statement. Or for the more subtle evenings pair a yellow pattern shirt from Superdry or a plain top from Next with anything white, for a fresh and modern touch to any outfit.
